Multichannel is a screening programme of artists film and video, organised and curated by ArtSway, SCAN and Animate Projects. The programme, which previously took place at ArtSway in 2007 and 2008, once again features both established practitioners, as well as artists from across the UK and around the world.

Variable Economies: The theme refers to the current economic downturn, decreased availability of resources, the influence of human intervention in the natural environment and artists approach to film and video

Reception for the Artists and Panel Discussion

Saturday 10 April 2010 at 3pm

Join Multichannel co-selectors Helen Sloan of SCAN, Peter Bonnell of ArtSway and Gary Thomas of Animate Projects, for a discussion of the themes on display in this year's screening programme.
